Med Aziz Laafine

Junior Software Developer

Manouba, Tunisia | (+216) 24 335 292 | laafinemohamedaziz@gmail.com | github.com/laafinemedaziz

Profile

A recent graduate Computer Science student with hands on experience in Full Stack Development. Strong problem-solving skills, quick to learn new technologies, and adaptable to fast-paced technical environments. Passionate about building user focused solutions and contributing effectively to development teams.

Experience

FULL STACK DEVELOPER INTERNSHIP | CLEVORY TRAINING | FEB 2025 – JUIN 2025

· Contributed to the design and development of a full-stack Platform using Angular, **Odoo (Python), and PostgreSQL**
· Developed and exposing custom **RESTful APIs** in Odoo to enable seamless integration with a standalone **Angular** frontend.
· Developed and integrated user management and payment processing features using **OAuth2** authentication and the **PayPal SDK**.
· Participated in both conceptual (**UML**) and technical development phases to deliver a real-world, production-ready web application.
· Containerized the backend and database using **Docker**.

Education

BACHELOR'S IN COMPUTER SCIENCE | JUNE 2025
HIGHER INSTITUTE OF MULTIMEDIA ARTS – MANOUBA (ISAMM)

Projects

ONLINE SALES AND DISTRIBUTION PLATFORM WITH E-WALLET

· **Developed a full-stack E-Wallet web application** with a focus on secure digital transactions, user account management, and real-time balance tracking.
· **Built the back end using Python, PostgreSQL, and Odoo ERP**, implementing CRUD operations, authentication, and integration with financial modules.
· **Collaborated on front-end development** using **Angular**, ensuring a responsive and user-friendly UI and a seamless integration between both ends.
· **Used Docker and GitLab CI/CD** for containerized development and continuous integration, streamlining deployment and team collaboration.

TASK MANAGER - MINI PROJECT

· A task manager app developed fully is **JavaScript** enabling users to track their daily tasks.
· Used **Firebase Firestore** as a document-based DB for storing tasks
· Used **Firebase Authentication** for user authentication and management.

Skills

· Languages: Java, C, Python, JavaScript
· Frameworks: Angular, React, SpringBoot, Odoo
· DevOps: Docker, Azure
· Other: PostgreSQL, PgAdmin, Firebase, OAuth2, PayPal SDK, Postman

Languages

○ English – Proficient   ○ French – Intermediate   ○ Arabic – Native

Courses and Certificates

· SoloLearn | Web Development Fundamentals | 2022
· Coursera | Mathematics for Machine Learning and Data Science | 2024
