Med Aziz Laafine

Junior Software Developer

Manouba, Tunisia | (+216) 24 335 292 | laafinemohamedaziz@gmail.com | github.com/laafinemedaziz

Profile

A recent graduate Computer Science student with hands on experience in Full Stack Development. Strong problem-solving skills, quick to learn new technologies, and adaptable to fast-paced technical environments. Passionate about building user focused solutions and contributing effectively to development teams.

Experience

FULL STACK DEVELOPER INTERNSHIP | CLEVORY TRAINING | FEB 2025 – JUIN 2025

- Contributed to the design and development of a full-stack Platform using Angular, **Odoo (Python), and PostgreSQL**
- Developed and exposed custom **RESTful APIs** in Odoo to enable seamless integration with a standalone **Angular** frontend.
- Developed and integrated user management and payment processing features using **OAuth2** authentication and the **PayPal SDK**.
- Participated in both conceptual (**UML**) and technical development phases to deliver a real-world, production-ready web application.
- Containerized the backend and database using **Docker**.

Education

BACHELOR'S IN COMPUTER SCIENCE | JUNE 2025

HIGHER INSTITUTE OF MULTIMEDIA ARTS – MANOUBA (ISAMM)

MASTER'S IN DATA SCIENCE AND INFORMATION RETRIEVAL | JUNE 2027

HIGHER INSTITUTE OF MULTIMEDIA ARTS – MANOUBA (ISAMM)

Projects

ONLINE SALES AND DISTRIBUTION PLATFORM WITH E-WALLET

- **Developed a full-stack E-Wallet web application** with a focus on secure digital transactions, user account management, and real-time balance tracking.
- **Built the back end using Python, PostgreSQL, and Odoo ERP**, implementing CRUD operations, authentication, and integration with financial modules.
- **Collaborated on front-end development** using **Angular**, ensuring a responsive and user-friendly UI and a seamless integration between both ends.
- **Used Docker and GitLab CI/CD** for containerized development and continuous integration, streamlining deployment and team collaboration.

PETADOPT – ANIMAL ADOPTION PLATFORM (PERSONAL PROJECT)

- **Developed a Full Stack web application dedicated to responsible animal adoption.**
- **Developed the backend using Spring Boot, PostgreSQL, and Spring Security (JWT, REST API).**
- **Developed the frontend with React for managing listings and adoption requests.**
- **Implemented real-time messaging and a notification system using WebSocket.**
- **Integrated modern technologies: Docker, Redis, Firebase Cloud Messaging, and Amazon S3.**
- **Designed an animal recommendation system using Python, FastAPI, and Machine Learning.**

TASK MANAGER - MINI PROJECT

- A task manager app developed fully is **JavaScript** enabling users to track their daily tasks.
- Used **Firebase Firestore** as a document-based DB for storing tasks
- Used **Firebase Authentication** for user authentication and management.

Skills

- Languages: Java, C, Python, JavaScript
- Frameworks: Angular, React, SpringBoot, Odoo
- DevOps: Docker, Azure
- Other: PostgreSQL, PgAdmin, Firebase, OAuth2, PayPal SDK, Postman

Languages

○ English – Proficient ○ French – Intermediate ○ Arabic – Native

Courses and Certificates

- SoloLearn | Web Development Fundamentals | 2022
- Oracle University | Oracle Cloud Infrastructure 2025 AI Foundations Associate | 2025
- Coursera | Mathematics for Machine Learning and Data Science | In Progress
